

# VISIT TO THE GLENBROOK STEEL MILL

## 22 October 2002

---

### **Attended by:**

Nelle, Hayden, Matt, Sez

### **Features:**

The Venturers watched videos and had a guided tour with Alan Udy through the Glenbrook Steel Mill and watched the processed in turning sand into steel slabs.

### **Notable Events:**

- Watching molten sand
- Filled full of O<sup>2</sup>
- Scraping slag out of the bottom of the ladle
- Pouring the molten steel
- Hot
- When Alan left us for a few minutes we all had a feeling of a horror movie in an abandoned building and not knowing our way back to the car.

### **We saw:**

- Cat
  - Coke machine
  - Glowing blocks of steel
  - Gantry Cranes
  - Video
  - Seemed like an abandoned building
-
